

## Vexio Device Cart - Double Drawers

---

With modular design, Vexio device carts with double drawers are ideal workstations with extra storage space and a medical equipment mobilization device designed to improve workflow and deliver high level of patient care.

- Designed to support medical equipment and devices for many applications within a clinical setting.
- Easy to modify for your needs to secure and store your daily supplies with additional accessories.
- Cost-effective to maintain with interchangeable parts across the Vexio product line.

### Features

- The aluminum construction provides a high load-bearing capacity of 65kgs (142lbs) despite the low weight of the cart.
- Center support column cable management keeps cords clean, hidden, and secure.
- Large platform areas provide ample workspace.
- Modular platform allows for easy customization now and in the future.
- Conforms with IEC 60601-1 3rd edition.
- Designed for easy cleaning.
