

Mounts for Nihon Kohden Life Scope® G9

Maximize bedside space with the most versatile patient monitor arms in healthcare. The patented AccessMount 180 ICW patient monitor mount offers a full 16 inches of height adjustment, allowing easy access for clinicians and folds flush against the wall when it's not in use to save space. The AccessMount 500 ICW features a compact, fixed-height pivoting arm.

- Multiple accessories—adapter plates, handles, cable management hooks, and down posts—are available to further optimize the monitor setup
- The AccessMount 180 ICW arm folds flush against the wall for space-saving storage
- The AccessMount 500 mount is compact, has a fixed height with a pivoting arm design
