

Mounts for GE CARESCAPE™ ONE

Free up valuable bedside space with the most versatile patient monitor arms in healthcare. The patented AccessMount 180 ICW patient monitor mount gives 16 inches of smooth height adjustment, folding flat when not in use for a cleaner, safer environment. This solution features a slide-in mounting plate that works seamlessly with all GE monitors.

- Designed to optimize clinician access and simplify bedside care.
- Medical-grade durability ensures reliability and long-term value.
- Customize GE setups with adapter plates, handles, cable hooks, and down posts.
