

Mounts for GE CARESCAPE™ B450

Enhance bedside care for both patients and staff by creating more room with healthcare's most adaptable patient monitor mounts. The patented AccessMount 180 ICW patient monitor mount offers 16 inches of smooth height adjustment, ensuring easy clinician access, and folds neatly against the wall when not in use. The AccessMount 500 ICW mount is a compact, fixed-height pivoting arm. Both arms come with a mounting bracket that includes a slide-in plate compatible with all GE monitors.

- Medical-grade construction ensures lasting durability and cost savings
- Accessory options—adapter plates, handles, cable hooks, and down posts—optimize GE monitor setups
- Purpose-built to improve clinician access and simplify bedside workflow
