

Mounts for Philips IntelliVue MX100 / MX3

Maximize space around the patient's bedside with healthcare's most versatile patient monitor arms. The patented AccessMount 180 ICW patient monitor mount offers 16 inches of vertical adjustment, allowing clinicians easy access, and conveniently folds flat against the wall when not in use. For a compact alternative, the AccessMount 500 ICW features a fixed height and a pivoting arm design. Both mounts are compatible with the Philips quick-release tabletop system.

- Medical-grade, durable and cost-effective solutions
- Mounts enhance usability and versatility of Philips patient monitors
- Designed for easy clinician access in compact clinical environments
