

Mounts for Philips IntelliVue MP5

Provide your patients and staff with more open space and better organization at the bedside with adaptable patient monitor mounts designed for healthcare settings. The AccessMount 180 ICW patient monitor mount, featuring a patented design, offers 16 inches of height adjustment for easy clinician access and neatly folds flat against the wall when not required. The AccessMount 500 ICW, a compact solution, offers a pivoting arm with a fixed height. Both mounts are compatible with the Philips quick-release tabletop system.

- Medical-grade, durable and cost-effective solutions
- Enhances usability and versatility of Philips patient monitors
- Comprehensive suite of accessories includes adapter plates, handles, cable management hooks, and down posts, all suited for Philips patient monitors
