

Mounts for Philips IntelliVue MX400 / MX450 / MX500 / MX550

Transform bedside patient care with the most flexible patient monitor arms in healthcare. The AccessMount 180 ICW patient monitor mount—complete with a patented mechanism—provides clinicians 16 inches of adjustable height in a compact design that folds flush to the wall. For a compact alternative, the AccessMount 500 ICW features a fixed height and a pivoting arm design. These mounting solutions work seamlessly with the Philips quick-release tabletop system.

- Wide selection of accessories available, including adapter plates, handles, cable management hooks, and down posts
- Medical-grade solutions are durable and affordable
- Mounting solutions enhance the functionality of any Philips patient monitor
