

Mounts for Philips IntelliVue MX750 / MX700

Create more room at the bedside with superior patient monitor arms designed for maximum adjustability. The patented AccessMount 180 ICW patient monitor mount provides a full 16-inch height adjustment range for easy access and folds neatly flat against the wall when stored. This arm is fully compatible with Philips quick-release tabletop mounts.

- Wide variety of configurations available to meet different clinical needs
- Medical-grade construction ensures durability and cost-effectiveness
- Mounting solutions enhance the usability of any Philips patient monitor
