

Mounts for Philips IntelliVue MX850 / MX800

Free up critical bedside space with the most adjustable and versatile patient monitor arms in healthcare. Featuring a patented design, the AccessMount 180 patient monitor mount offers 16 inches of height flexibility for convenient clinician positioning and folds flat against the wall to conserve space when not needed. Designed for use with Philips quick-release tabletop mounts, our sturdy medical-grade solutions are both durable and economical.

- Versatile solutions allow clinicians easy access to patient monitor and improved positioning flexibility
- Mounting solutions enhance the usability of any Philips patient monitor
- Built from durable, medical-grade aluminum for long-lasting performance
