AccessMount 182 ICW: Mount Heavier Monitors Easily and Safely without Losing Maneuverability

The AccessMount 182 ICW arm is counter-balanced, making it effortless to move your monitor or flat panel display in any direction. Internal cable management creates a neater appearance, protects wires and simplifies cleaning. Adjustable rotation stops protect the equipment and facility from damage.

- Engineered for reliability, this arm will provide years of dependable service.
- Popular in healthcare environments and other settings that require maximum range of motion of a computer workstation or device.
- When paired with the proCARE anesthesia cart, this makes the perfect OR solution.
- Relieve eye, neck and back strain by easily moving arm to most comfortable position.

Features

- Sleek design and sturdy construction
- Engineered for years of reliable service and quiet operation
- Ergonomic design relieves eye, neck and back strain by easily moving arm to the most comfortable position
- Monitor rotates for portrait viewing of images and pages which cuts down on the need to scroll
- Effortlessly push your display out of the way when not in use
- Cable management system conceals cables and routes them through the arm for a neater appearance and to simplify cleaning
