

AccessMount CPU Frame: Securely mount your computer while saving valuable desk and floor space

Safely harness your computer from the floor and extend its life while saving valuable desk or floor space with our AccessMount Computer Frame mounts. We offer a variety of sizes designed for both large and small form factor computers which secure your computer to a wall or desk in an adjustable frame. Placing computers on the floor hampers performance due to blocked airflow and increased dust accumulation—our CPU frame mount secures your computer off the floor to improve air current and prevent overheating.

- Features neoprene padding protects and insulates CPU from static
- Available in various sizes for both large and small form factor computers
- Improves workplace safety by reducing trip hazards and protecting equipment

Features

- Safely suspends computers off the floor to extend equipment life with improved airflow
- Saves valuable desk or floor space
- Adjustable frame secures computers to a wall or desk
- Neoprene rubber pads protect and insulate computers from static
- Keyhole wall plate allows for easy attachment and removal
- Simplifies installation and regular maintenance
- Constructed from heavy-duty aluminum for strength and durability
- Powder-coated finish for a long-lasting, attractive appearance

Specifications

- **Load Capacity:** 45 lbs (20.4 kg)
- **Small CPU-MINI Horizontal Adjustment:** 1.9" - 3.2" (4.8 cm - 8.1 cm)
- **Large CPU-7 Adjustment Dimensions:** 7" to 11" (17.8 cm to 27.9 cm) wide
- **Vertical Adjustment Range (lift distance):** N/A
- **Reach (maximum horizontal reach):** N/A
- **Arm Swivel at Mount:** N/A
- **Screen Swivel:** N/A
- **Screen Tilt:** N/A
- **Stowed Depth:** N/A
- **Monitor Rotation:** N/A
- **VESA Interface:** N/A
