

AccessMount 500i ICW: Maximize Your Workspace with a Secure and Adjustable Mount

The accessibility of the AccessMount 500i ICW frees up more room in your facility to help streamline workflow and improve patient care with a clear line of sight between the clinician and patient. This flexible solution allows healthcare and dental professionals to easily adjust their workstation to the ideal height and angle, promoting optimal visibility and ergonomics during exams, consultations, or procedures. Once positioned, the arm locks securely into place, ensuring stability throughout use.

- Ideal for healthcare and dental environments where space efficiency and ergonomic comfort are priorities
- Offers a wide range of tilt, pan and swivel options to relieve long-term eye, neck and back stress
- Extension pipe options available in a variety of lengths

Features

- Improves patient care by maintaining a clear line of sight between clinician and patient
- Sleek design frees up valuable workspace and streamlines workflow
- Securely locks into place for safe and stable monitor positioning
- Enables monitors or screens to be positioned at optimal angles for best viewing during patient care
- Internal cable management for a neat appearance and simplified cleaning
- Ceiling mount configuration locks into the ceiling using an extension pipe made from true 2" O.D. structural tubing for superior side load support
- Customizable extension pipe length to meet your specific needs
