

AccessMount 560i ICW: Adjustable and secure ceiling and wall monitor mount

Secured safely overhead or to a wall, the AccessMount 560i ICW monitor mount helps free up space in your work environment with an easily accessible and adjustable monitor solution. This solution enables healthcare and dental providers to position monitors to the most optimal viewing angles for both your staff and patients.

- Maintains a clear line of sight between clinician and patient, improving patient care
- Offers tilt, pan and swivel options to relieve long-term eye, neck and back strain
- Quicklink adjustor provides full articulation of the monitor

Features

- Overhead ceiling mount design frees up valuable workspace and streamlines workflow
- Ideal for healthcare and dental environments where space efficiency and ergonomic comfort are essential
- Securely locks into place above head for safe, stable monitor positioning
- Enables monitors or screens to be positioned at optimal angles and heights for best viewing
- Internal cable management provides a neat appearance and simplifies cleaning
- Secured with a robust 8" x 8" (20.3 cm x 20.3 cm) ceiling plate for increased strength and stability
- Constructed from billet aluminum for enhanced durability
- Powder coated in gloss for a long-lasting, attractive finish

Specifications
