

AccessMount Keyboard Tray: Ergonomically Comfortable and Adjustable

The AccessMount Keyboard Tray mount utilizes a flip-up system that allows you to tilt the keyboard all the way back for convenient stowing. The keyboard tray's built-in wrist rest keeps your hands in the most comfortable ergonomic position. The handle allows the user to effortlessly steer the keyboard to their most comfortable position or stow it out of the way when it's not in use. The mouse tray accommodates right- and left-handed users as it slides out either side. Great in medical and dental applications for simple workstations used for data entry or for patient use.

- The independent tilt tray allows the keyboard tray to pivot while the worksurface stays flat for ergonomic typing.
- Flip-up stowable design means the tray folds back entirely, freeing up space when not in use.
- Built-in wrist rest's angled front edge offers enhanced typing comfort and wrist support.

Features

- Slide-out mouse platform: Integrated mouse tray extends smoothly for right- or left-handed use
- Generous tray size: 19" × 10" keyboard area accommodates full-sized keyboards with ease
- Heavy-duty aluminum build: Machined from billet aluminum and powder-coated for clinical-grade durability
- Discreet cable routing: Hidden internal cable management ensures clean installation and protects wiring
- Tool-free wall install: Simple wall-mount system allows for quick deployment in any workspace

Specifications

- **Load Capacity:** 45 lbs (20 kg)
- **Vertical Adjustment Range (lift distance):** N/A
- **Reach (maximum horizontal reach):** 30" (76.2 cm)
- **Arm Swivel at Mount:**
 - Wall 180°
 - Pole 180°
 - Desk 360°
- **Tray Swivel:** N/A
- **Tray Tilt:** N/A
- **Stowed Depth:** 4" (10.2 cm)
