

AccessMount Under Cabinet Mount: Inverted Full Workstation with Short Monitor Mount

The AccessMount Under Cabinet Workstation offers unmatched versatility with its universal track, allowing installation under any cabinet—unlike competitor mounts that require proprietary cabinetry. The Pro Slide track provides smooth, quiet sliding action horizontally as well as fluid articulation vertically. It's the perfect workstation solution for dental cabinets and more.

- Easy access to your technology without it getting in the way of patient care.
- Slides 21.6" (54.9 cm) along a standard 28" (71.1 cm) track, with customizable track lengths available
- Does not require a compressor in order to operate.
- Under cabinet track offers smooth movement that is quiet and unintrusive.
- Integrated cable management routes wiring through the slide track and mount, protecting cables and extending the life of both the mount and connected devices.

Features

- Universal track can mount to underside of any cabinet and custom tracks can be cut to length by request
- Will not damage cabinet with vertical movement as mount includes adjustable stop
- Does not require a compressor in order to operate
- Cycle-Tested for 80,000 slides without issues or noticeable wear
- Cabling is discreetly hidden and protected in the slide track, and internally through the mount, giving longer life to your mount and devices
