AccessMount VT Series Low-Profile Workstations

The VT series is slim, smart, and built for high-traffic spaces. This vesa-compatible innovative mount is an excellent choice for areas that require both a low-profile workstation and ergonomics, such as healthcare corridors in medical clinics, hospitals, surgery centers, and emergency rooms.

- True sit-stand mount with built-in work surface and keyboard tray
- Keyboard tray is stowed inside the worksurface tray, so it's out of the way when not in use
- Durable construction
- Engineered for reliability

Features

- Engineered for reliability
- Durable construction
- Rotates 180° at the wall mount for unsurpassed reach in all directions
- 21" of vertical movement for sit-stand capability
- Internal cable management protects wires from damage

Specifications

- **Load Capacity:**
