

AccessMount 510 ICW: Smooth Extendable Arm with Slim Profile

The AccessMount 510 ICW mounted workstation delivers smooth horizontal extension and retraction of the monitor and keyboard — which also offer individual adjustments — to promote ergonomic comfort while delivering patient care in healthcare and dental settings. When not in use, this flexible arm can be conveniently stowed into a compact profile to save space and give the caregiver a direct line of sight to the patient.

- Rigid arms provide solid support and fluid movement
- Multiple mounting options
- Modular and flexible design to meet a wide range of requirements
- Reliable and adaptable solution for optimizing productivity and comfort in medical and dental environments

Features

- Smooth horizontal extension keeps monitor at eye level
- Conveniently stowed into a compact profile when not in use to save space
- Engineered for reliability and durable construction
- Independent adjustment of monitor and keyboard promote ergonomic comfort
- Designed specifically for healthcare and dental settings
- Rigid arms provide solid support and fluid movement
- Reliable and adaptable solution for optimizing productivity and comfort in medical and dental environments
