

AccessMount Undercabinet Monitor Mount

The AccessMount Undercabinet Monitor Mount delivers a full range of motion in a compact, space-efficient design—ideal for clinical environments where flexibility and workflow efficiency are critical.

Engineered with durability, ergonomic comfort and ease of use in mind, this patented mounting solution combines 180° of vertical rotation with 360° of horizontal rotation, offering the most articulation of any heavy-duty compact undercabinet mount. The mount's maneuverability ensures clinicians can position their display exactly where it's needed for optimal visibility and is purpose-built to support medical and dental workflows, allowing staff to optimize efficiency while reducing workspace demands.

- Supports workflow efficiency in exam rooms, nursing stations, and procedure areas by enabling quick, precise monitor adjustments
- Pro Slide track system provides smooth, quiet horizontal movement and fluid vertical articulation
- Installs under cabinets or sturdy surfaces, tapping into underutilized space to expand usable work areas

Features

- Mounts securely beneath cabinets or sturdy surfaces to maximize various workspaces
- Pro Slide track ensures silent, effortless movement
- Patented design for maximum articulation in tight spaces
- Versatile AccessMount 180 ICW Monitor Mount offers 180° of vertical rotation and 360° horizontal rotation for optimal positioning
- Compact design folds neatly beneath cabinets when not in use, keeping workspaces clean and clutter-free
- Heavy-duty construction engineered for long-term durability and reliability in demanding healthcare and dental settings
- Ergonomic monitor positioning reduces strain and enhances clinician comfort during use
- Optimized for clinical flexibility, ensuring technology adapts seamlessly to evolving care environments

Specifications

- Load Capacity: 32 lbs (14.5 kg)
- Vertical Adjustment Range (lift distance): 16" (40.6 cm)
- Reach (maximum horizontal reach): 28" (71.1 cm)
- Track Length: 28" (71.1 cm)*
- Usable Track Slide Length: 21.6" (54.9 cm)**
- Arm Swivel at Mount: 180 degrees
- Screen Swivel: 360 degrees
- Screen Tilt: 50 degrees
- Stowed Depth: 10" (25.4 cm)
- Monitor Rotation: 360 degrees
- VESA Interface: 75 mm and 100 mm

CAVEATS/NOTES:

- *Custom tracks can be cut to length by request.
- **Vertical and horizontal travel can be affected by cabinet's dimensions
