medDispense® F series Automated Dispensing Cabinets

The medDispense® F series automated dispensing cabinets' single dose drawer technology allows medical staff to access only the specified compartment within the drawer for maximum security of items like controlled drugs.

- Locate medication quickly with illuminated drawers that light up when medication is ready to dispense.
- Available in multiple configurations with up to 15 drawer sizes to accommodate all types of medications.
- The medLogic™ software platform delivers increased efficiency and flexibility for your pharmacy, caregivers and IT team.
- Countertop model provides all the features of the larger unit in a smaller footprint to accommodate your medication security needs with less space.
- With a maximum capacity of 384 items in 8 customizable levels, the countertop model offers plenty of options for facilities that might be short on space -- and budget.

Features

- Powered by our latest dispensing software, medLogic™, the medDispense® F series automated dispensing cabinets provide the highest level of security with single-dose steel progressive drawers.
- The medDispense® F series automated dispensing cabinets integrates with: C, CS, CT, L, M and V series medDispense® cabinets.
- Pick-to-Light guidance technology guides you to the drawer with the selected medication.
- Steel construction fully supports the NHS controlled drug requirements.
- Supports three stocking modes: single, mixed and linear.
- Medication management in all the sizes you need.
