

medDispense® V series Automated Dispensing Cabinets

The medDispense® V series automated dispensing cabinets provide storage and traceability of bulk medications and supplies. Ideal for central pharmacy controlled drug storage.

- Easily configure cabinets for your needs with three standard door sizes that can be mixed within one frame.
- Locate medication quickly with illuminated cabinet and doors.
- Enhance visibility and reduce waste with clear door options.
- Capacity to hold up to 720 items.
- Combine with medGuard™ software to securely store, trace and dispense controlled substances.
- Powered by medLogic™ to deliver increased efficiency and flexibility for your team and a safer environment for your patients.

Features

- Powered by our latest dispensing software, medLogic™, the medDispense® V series automated dispensing cabinets provide storage and traceability of bulk medications and supplies.
- Ideal for central pharmacy controlled drug storage:
 - Combined with the medGuard™ module, the V series provides a closed loop solution for your controlled drug management.
- The medDispense® V series automated dispensing cabinets integrates with: C, F, L and M series medDispense® cabinets.
- Items are easily located by pop open doors or guiding lights for quick and intuitive access.
- Microban® antimicrobial infused surfaces.
