elo-cart Universal Patient Monitor Roll Stand

The TouchPoint Medical elo-cart effortlessly delivers essential equipment, like patient monitors, directly to the bedside, aiming to elevate patient care, streamline workflows, and enrich the healthcare journey. This versatile, durable, and sophisticated patient monitor roll stand is tailored to accommodate products from top manufacturers such as GE, Nihon Kohden, Mindray, Drager, and more.

- Organized environment leads to greater patient engagement. The elo-carts small footprint frees up space in an otherwise device-intense setting giving caregivers more direct interaction with patients.
- Simple and reliable. With a stable base and 4 tracking casters, maneuverability of patient monitors is easy and safe. Plus the fully enclosed bin makes access to leads and other accessories fast and efficient.
- Service and maintenance. Our onsite services will assess your area and workflow, do mockups for your staff to evaluate, provide a clean professional installation, and maintain to ensure it continues to meet the staff's needs.
