

The Ultimate in Comfort, Convenience and Flexibility

**AccessPoint™**  
Mobile Computing

With over 100,000 workstations in facilities all over the world, TouchPoint Medical is established as a leading provider of mobile computing systems. We are proud to introduce our 7th generation workstation, the *TouchPoint Medical™ AccessPoint™* Mobile Computing System. Building upon the collective expertise from Flo Healthcare, ITD and TouchPoint Medical, the *AccessPoint™* system has been designed from the ground up to provide the *Ultimate in Comfort, Convenience and Flexibility.*

# TRUE ERGONOMIC DESIGN FOR THE ULTIMATE USER EXPERIENCE

- 1 Supports a wide variety of display options, including touch screens, all-in-one computers and dual monitors.
- 2 Large, open work surface features **MICROBAN®** antimicrobial protection.
- 3 Innovative keyboard tray provides the widest range of ergonomic adjustment: 10° of positive tilt, 20° of negative tilt, 180° of rotation and 7" of independent height adjustment.

- 4 Robust column design provides a stable platform to support your workflow and accommodate a variety of accessories.
- 5 Compact footprint and easy-roll casters provide maximum maneuverability in tight spaces and over thresholds.

## Designed from the ground up to meet the Cornell University Healthcare Cart Ergonomic Standards.

(A stringent, 35-point checklist that measures the ease of use, safety, and effectiveness of the cart.)

**MICROBAN®** antimicrobial protection helps prevent the growth of stain and odor causing bacteria on the workstation. **MICROBAN®** protection is not designed to protect users against disease causing microorganisms. **MICROBAN** is a registered trademark of Microban International, LTD.

## UNIQUE FEATURES

### Fully-Adjustable Display Mount

TouchPoint Medical-exclusive display mount allows users to raise, lower, tilt, swivel or rotate the monitor to find the ideal viewing angle, including a bifocal-friendly angle if needed. Monitor can also be lowered to provide enhanced visibility while traveling room to room.

### Electronic Lift

Optional electronic lift mechanism provides strain-free adjustment for a keyboard height range of 25"- 48".

### Capacitive Touch Keypad

Manage task lighting, battery level, e-lift control, and computer power. Functional even through several pairs of gloves.

### Integrated Footrest

Designed for maximum comfort and durability, the integrated footrest reduces fatigue and allows nurses to relax in a more ergonomic position throughout the day.

### Ergonomic Push Handles

Contoured handles provide easy maneuverability.

### LED Task Lighting

Work surface and keyboard lights provide ample visibility when working in a patient room during night hours.

# BlueCHIP

(Certified Hardware Integration Program)

## IN-FACTORY INTEGRATION

### The Fully Integrated Approach: Out-of-the-Box Deployment.

When you select TouchPoint Medical's BlueCHIP Certified Hardware Integration Program, your *AccessPoint™* mobile workstation arrives as a ready-to-roll, fully integrated solution. With the BlueCHIP program, TouchPoint Medical integrates all computer equipment and peripherals in our facility to comply with the rules and regulations of the Intertek certification and delivers a fully integrated turnkey solution to the customer's site. Once selected, a BlueCHIP integrated solution needs only to be purchased and deployed.

- Performance enhanced turnkey solution
- Fully certified as medical grade UL 60601-1
- Installation of BatteryPro Monitoring Software
- Multi-vendor support – one point of contact
- 2 Year standard warranty on ALL TouchPoint Medical furnished equipment (including computers and peripherals)

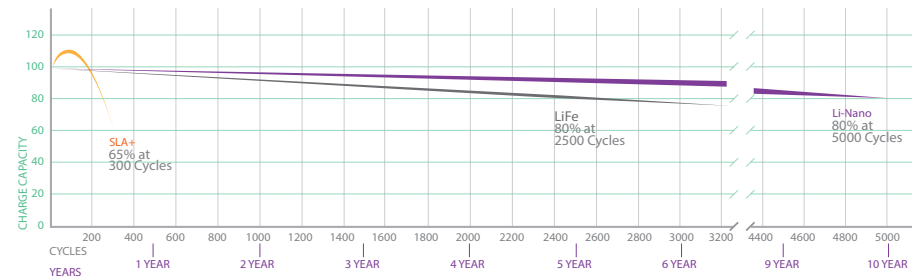

# ENGINEERED TO DELIVER ELITE PERFORMANCE & LONG-TERM VALUE

### The Power of Choice.

With three different chemistry options, the *TouchPoint Medical™ AccessPoint™* system has a power system to meet both your workflow and your budget. Our advanced Li-Nano battery delivers twice the life of typical LiFe batteries and comes standard with an industry-leading 5-year warranty.

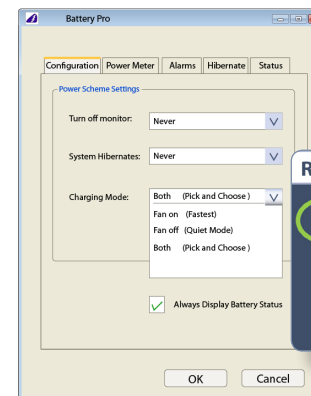

#### CHEMISTRY CYCLE COMPARISON (with typical hospital usage)

**TOUCHPOINT OPTIONS** **SLA+ LiFe LI-Nano** SLA+ systems degrade almost immediately after initial use. LiFe provides consistent performance for 2500 cycles. **LI-Nano** provides maximum performance for more than 5,000 cycles.

### Charging options to fit your environment and workflow.

The next generation power system of the *TouchPoint Medical™ AccessPoint™* system offers greater flexibility when it comes to your charging options. The new fanless charging mode reduces the circulation of dust, debris and other harmful contaminants while quietly recharging your system in 3 hours. The fast-charge mode can replenish a depleted power supply in as little as 2 hours.

**Recharge Mode**

Select Charging Mode: Please select a charging option...

Silent Charge (3 Hours)

Fast Charge (2 Hours)

Default (Silent mode) will start in 15 secs, if no option is selected

# INVEST IN YOUR FUTURE WITH A UNIQUE DESIGN & SCALABLE PLATFORM

## Ready-to-integrate. Ready-to-deploy.

The innovative design of the *TouchPoint Medical™ AccessPoint™* system makes it easier than ever for IT and biomedical teams to integrate their own technology when time is of the essence.

Our universal tech tray design accommodates a wide variety of technology form factors and offers an expandable side bay for larger devices and future upgrades. AccessPoint features Wake-on-LAN/Wake-on-Power capability, clutter-free cable management, and the ability to easily configure for AC or DC technology integration.

## Battery-only Replacement.

The advanced power system provides easy access for maintenance, upgrades and replacements. Batteries are independent from the electronics while future chemistry upgrades or replacements will consist of a "battery only" replacement.

## Budget Flexibility.

By offering the ability to upgrade the battery only without changing the entire power system, AccessPoint offers unique budget flexibility. Facilities can manage the initial investment by choosing a chemistry that fits their budget and later upgrade to a more advanced system to extend the life of the workstation.

## Grow. Transform. Improve.

Because the needs of your facility are likely to change as you progress through the HIMSS EMR adoption model, the *TouchPoint Medical™ AccessPoint™* system was designed to be field-upgradable for any application. The flexibility to add medication storage and a barcode scanner to support BCMA or dual monitors for PACS allows you to maximize the return on your mobile computing investment.

## Simplicity for the long haul.

The scalable platform of the *TouchPoint Medical™ AccessPoint™* system features a high level of commonality for replacement parts and components to simplify the service and maintenance of your entire fleet.

## Don't stop. Swap.

Get 24/7 runtime with a quick, easy and user-friendly swappable battery system designed and tested for real-world use. The lightweight, high-capacity Lithium-Ion battery delivers long, reliable run-times.

TOUCHPOINT MEDICAL™ MOBILE  
MEDICATION SOLUTIONS:

# DRIVING ACCOUNTABILITY TO THE BEDSIDE.

Whether medications are stored in an automated dispensing cabinet or come directly from central pharmacy, TouchPoint Medical realizes that healthcare facilities face many challenges when implementing a closed loop medication delivery process. The *TouchPoint Medical™ AccessPoint™* series of mobile medication solutions are specifically designed to improve workflow by providing nurses with the information and medications they need, where they need them most: the patient bedside.

**AccessRx™** - Easy-to-use software, capacity for up to 12 individual patient drawers and advanced ergonomics provide right solution for any facility looking to improve medication delivery.

**AccessRx MD™** - A mobile medication system that fully integrates with EMR/HER, CPOE, BCMA and eMAR systems to provide a true, patient-centric solution...bringing greater accountability and efficiency to your medication administration process.

## AccessRx MD™

Mobile Medication

### Unparalleled Control

- > Innovative *ADC-agnostic* product design is compatible with a variety of clinical workflows and upstream medication dispensing models
- > Configurable, time-based access controls reduce the risk of medication administration at an incorrect time and aid in pharmacy reconciliation for unused medications
- > Transactional client auditing for patient, user and device events
- > Centralized, web-based console provides access to reports while allowing for Active Directory-compatible user management, fleet management and system setup

### Enhanced Security

- > Individually locking, patient-specific drawers can be opened by scanning the patient ID barcode
- > Patient drawers can be assigned using the HL7 ADT (Admission/Discharge/Transfer) transactional data from the HIS, eliminating time consuming and error-prone manual drawer labeling
- > Barcode patient identification and direct eMAR access improves BCMA adherence, reduces redundant tasks and increases accuracy
- > Eliminates common workarounds such as the placement of multiple patients' medications in the same drawer or in clinicians' pockets
- > Optional barcode label printer provides identification to patient specific items

### Streamlined Workflow

- > Real-time bedside medication administration, barcode patient identification and direct eMAR API access streamlines BCMA process, reduces redundancy and increases accuracy
- > Secures medications for up to 12 patients in individually-locking drawers, reducing trips and time spent at the ADC
- > Utilizes the hospital's Active Directory to allow each caregiver to use the same alpha-numeric user access information used to sign on to other hospital systems
- > Multi-functional design increases caregiver efficiency allowing for more time spent with patients

# TOUCHPOINT MEDICAL™ MONITOR™ DASHBOARD SYSTEM

# CLEANER BY DESIGN

## Knowledge at your fingertips... TouchPoint Medical™ Monitor™ Dashboard System

With TouchPoint Medical's intelligent management and monitoring dashboard system for mobile computing workstations, IT professionals with enterprise software now have web-based access to workstation performance data, including power system and network connectivity, to streamline fleet management and increase workstation uptime.

- > Scalable system designed to support 1 workstation or 1,000+ with easy-to-use group controls
- > Automatic workstation visibility and set-up
- > New robust reporting features, including power usage rates, real-time updates on user & alert management and other advanced features

- > TouchPoint Medical-exclusive *MICROBAN*® antimicrobial protection is infused into the *AccessPoint*™ system, as opposed to our competitors' antimicrobial protection solutions, which are painted on the surfaces of their products and may chip off
- > Fanless charging mode reduces the circulation of dust, debris and other harmful contaminants
- > Advanced polymer and other proprietary finishes provide corrosion resistance
- > Smooth, rounded corners allow for easier cleaning

\*Microban protection is not designed to protect users against disease causing microorganisms.

MICROBAN is a registered trademark of Microban International, LTD.

# PROTECT YOUR INVESTMENT WITH OUR WARRANTY & SERVICE PLANS

## 5 YEAR WARRANTY

TouchPoint Medical believes your workstations are a long-term investment which needs to be protected. We stand behind our customers with a comprehensive, 5-year mechanical and a 2-year electrical warranty standard.

### TOUCHPOINT MEDICAL™ ESP<sup>SM</sup>

#### ENHANCED SERVICE PROGRAM

TouchPoint Medical understands how important uptime is to keeping clinicians efficient. So that's why we've designed service programs tailored to help you do just that. Only TouchPoint Medical knows our products like we do, down to every nut and bolt. Only TouchPoint Medical provides you with the factory authorized parts designed to work specifically with your equipment.

#### DO YOU HAVE QUESTIONS?

Customer Support: 1-800-947-3901  
info@touchpointmed.com

### TouchPoint Medical™ Advance

#### Integration & Deployment

**Time is money...** TouchPoint Medical has created a seamless process designed to get you up and running as quickly as possible. Certified technicians and professional support ensure proper installation of all your critical components and training of your staff.

### TouchPoint Medical™ Maintain

#### Preventive Maintenance

**Free up your valuable resources and get proactive...**

Preventive maintenance is a critical step to enhanced efficiency, and TouchPoint Medical helps you think ahead. Timed inspections by our trained and certified technicians will help lower your total cost of ownership and maximize the life of your investment.

### TouchPoint Medical™ Assurance

#### Extended Warranty

**Protect your investment and keep clinicians efficient...** Safeguard your equipment against unplanned downtime. Extended warranty options and rapid response from TouchPoint Medical help increase system reliability and keep operating costs under control.
