

# proCARE™

A Better Way to Work -  
increase time spent on  
patient care.

More than a storage solution –  
it's your professional care assistant.

## Convenient and Clean by Design

Improve staff comfort and efficiency while raising patient experiences and outcomes. proCARE™ offers standard features on all carts designed to give you precisely what you need, how you would expect it when it's needed most.

## Everything in its Right Place

proCARE™ drawer specifications allow you to store medication and supplies efficiently, so you can focus on what matters most: patient's experiences and outcomes.

proCARE™ accessories allow you to configure procedure carts to store, hold, and secure the supplies and equipment you rely on every day.

## Extended Service Plans

Protect your investment with our Enhanced Service Program. From integration to deployment and all throughout the lifecycle of our products TouchPoint Medical is with you every step of the way.

## Secure and Store Throughout Your Workflow

Multiple security options allow you to apply the right level of security to efficiency control medications and controlled substances from pharmacy to bedside.

# Why proCARE™ Cart Features Matter.

## Ergonomic Design

- Durable and lightweight design.
- Requires less push force than heavier all-metal carts.
- Easy to maneuver with four 125mm (5in) swivel casters (two brake locking, two steering/directional) with low rolling resistance on all surfaces and pistol grip handles.
- Ease of use is enhanced by keyboard tray and dynamic monitor mount.

## Configurable Drawer Systems

- Customizable drawer configurations.
- Drawer sizes most frequently accessed can be moved to the best ergonomic location, reducing strain on caregivers.
- Eliminate the uncertainty of changing workflows and supplies.

## Removable Interchangeable Drawer Inserts

- Facilitates rapid and easy replenishment of supplies when using PAR level stocking.
- Removable antimicrobial drawer inserts are easily cleaned.
- Drawer inserts can be placed on the cart's work surface for organization at the optimum ergonomic height.
- Carts do not need to be returned to the pharmacy to be restocked.

## Full Extension Soft Closing Slides

- 100% visual and physical access to your drawer contents.
- Allows for maximum capacity while delivering maximum access.
- Supports the heavier loads your application requires without sacrificing smooth, soft-touch performance.

## Expandable Work Surfaces

- Maximum workspace, with a minimal cart footprint.
- Allows space for your task and supply organization.
- Supports comfortable access by multiple users.
- The extra space you need, when you need it.

## Antimicrobial Infused Protection

- Cleaner by design: retards growth of bacteria on cart surfaces.
- Decreases chances of patient contracted hospital-acquired infections.
- Peace of mind for caregivers.

## Fanless Charging

- Sterile environments are not compromised.
- Improves levels of infection control.
- Patients rest easier in a quieter setting.
- Positively contributes to better patient outcomes and satisfaction.

## Multiple Security Options

- All carts and all drawers accept tamper-evident security seals, so that contents of a drawer are fully stocked, ready to go, and have not been compromised.
- RFID tap-n-go security makes access to the cart easy without wasting precious time or steps.
- Individual drawer locking with user-specific access keeps controlled substances secure while ensuring productivity.
