BRINGING CARE FORWARD.™

Elevating Care Through Innovative Solutions

Workflow and medication dispensing solutions that empower your team to work safely and productively while driving positive patient experiences.

Why Choose Us?

By providing clinicians with high-tech, customized solutions, TouchPoint Medical removes barriers from what's most important in medicine—the human touch. With the right workstations, carts, and medication dispensing cabinets on hand, nurses and other professionals in the field spend less time attending to equipment. Instead, they're able to compassionately engage with patients. Within all types of healthcare environments, improving patient outcomes is our shared goal.

HEALTHCARE WORKSTATIONS DESIGNED TO INCREASE PRODUCTIVITY AND COMFORT

TouchPoint Medical will gladly collaborate with your team to create workstation solutions that reduce the everyday stresses of doing rounds, charting, and providing bedside care. Our adjustable and ergonomically designed carts and mounts give nurses the ability to quickly and easily handle the administrative part of care, freeing up valuable time to spend with patients.

MEDICATION MANAGEMENT DESIGNED TO PROTECT PATIENTS AND STAFF

Medication management cabinets and workstations from TouchPoint Medical give you and your staff the power to increase efficiency, safety, and security of medication dispensing in your facility. Your pharmacists and technicians will spend less time stocking, tracking, and delivering medication. Nurses and the patients will feel confident knowing that your facility has equipment in place specifically designed to avoid dangerous medication errors.

Knowledgeable & Engaged

Global experience with medication management and bedside solutions.

Service Oriented

We know that all healthcare requirements are not the same and will work to deliver the solution that meets your needs.

Quality Driven

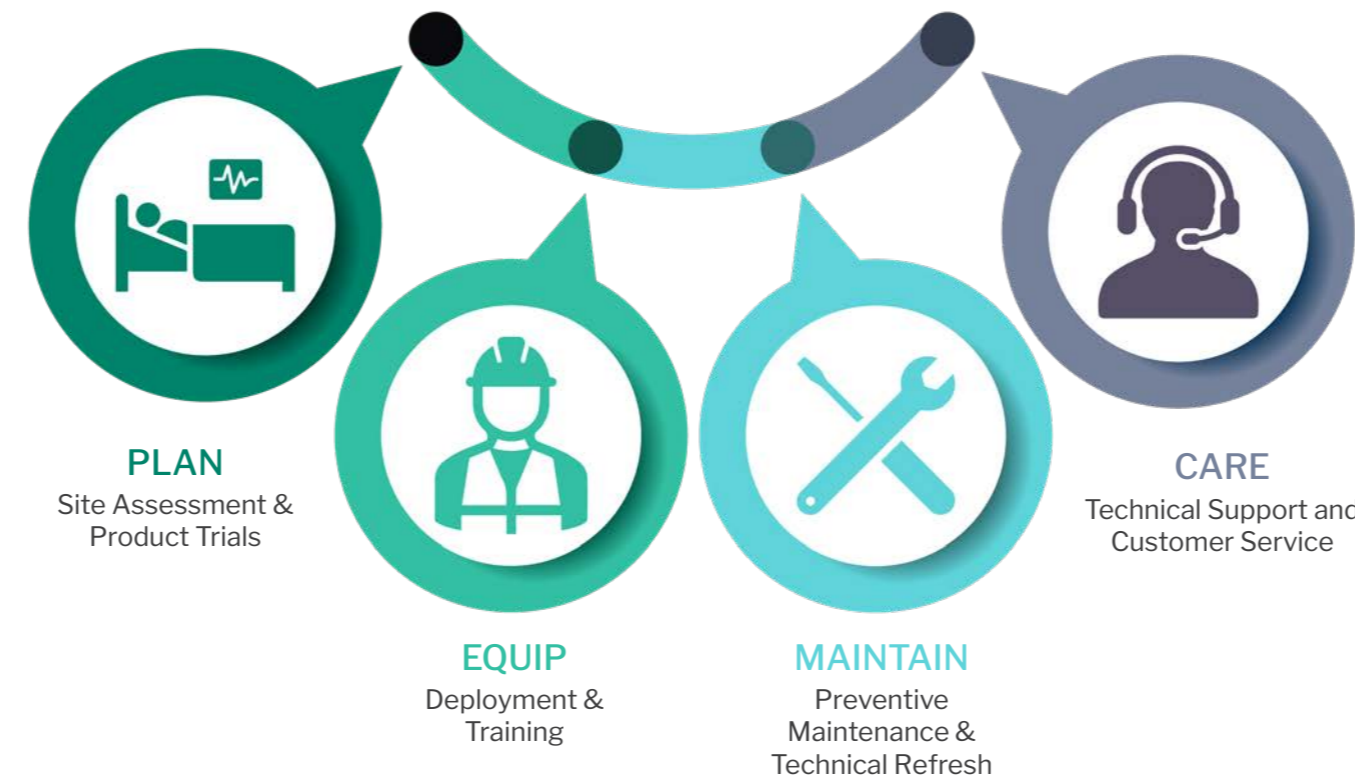

We design, manufacture, sell and support our products to ISO 13485:2016 standards

Service First.

At TouchPoint Medical, we're all about making things easier and more enjoyable for everyone involved. Our equipment is user-friendly, so it cuts down on the hassle of everyday tasks. This frees up care teams to focus on what matters most: the patient. Plus, our 4-pillars of service keeps things running smoothly—avoiding interruptions, keeping staff productive and patient satisfaction high.

- **Plan.** During our site assessment and product trials, we ensure the technology you need supports patient care and doesn't hinder it.
- **Equip.** Customized installation and product training offers expert knowledge and assistance, getting you up and running as quickly as possible.
- **Maintain.** Preventive maintenance and tech refreshes continuously and actively monitor the performance of your systems.
- **Care.** Live and local technical support and customer service is always just a call or click away.

Through innovative solutions and comprehensive customer service, TouchPoint Medical supports your mission to enhance care and improve overall patient satisfaction.

How We Can Help.

As your technology partner, we can help customize equipment in ways that better suit your workforce, equipping staff to deliver better overall care. Both our workstations and medication dispensing solutions can be customized to your specifications, ensuring they are simple for your team to use and add value to your workflow.

POINT OF CARE

Ergonomic workstations, carts, and mounts play an important role in facilitating the day-to-day productivity and comfort of your valuable team members. With TouchPoint Medical, you can expect improvements in clinical workflow and reductions in downtime, all leading to more time available for important patient interactions.

MEDICATION MANAGEMENT

TouchPoint Medical's medication dispensing cabinets and delivery workstations empower pharmacies and their teams to store and manage medication in the safest and most efficient way. We offer simple, reliable solutions that allow professionals to quickly access exact doses, drastically reducing errors.

Service Oriented.

No two workflow requirements are exactly alike even among similar healthcare environments. That's why, we work closely with your team to deliver exactly what you need and nothing you don't.
