

Ambulatory Surgery Center Solutions

Optimize Workspaces

Our space saving EMR solutions keep technology in reach, while automated dispensing cabinets secure medications, enabling efficient workflows and maximizing patient focus in compact healthcare environments.

Smart Dispensing

Our medication dispensing solutions offer secure storage and precise control. Real time inventory tracking across single or multiple locations streamlines operations for maximum efficiency.

Budget Friendly Options

Versatile medication dispensing solutions deliver both security and cost savings. Designed for convenience, our systems simplify dispensing and provide greater peace of mind.

Enhance patient care with flexible solutions and advanced security tailored to the unique needs of ambulatory surgery centers.

TouchPoint Medical empowers ambulatory surgery centers by optimizing teams with space saving EMR solutions and automated medication dispensing cabinets. This enhances patient care through efficient workflows, improved medication security, and real time inventory tracking. Budget friendly options further streamline operations and provide peace of mind, allowing healthcare providers to focus on their patients.

BRINGING CARE FORWARD.™
