

Transforming Your EMS Operations

Faster Restock

Our automated dispensing cabinets in firehouses and central depots simplify restocking, eliminating time consuming searches. We enable your team to speed up the restocking process, ensuring every minute is utilized effectively.

Flexible Solutions

Every firehouse and central depot has unique challenges. Our custom solutions can be mounted on desks, walls, floors, or even ceilings, maximizing your available space while maintaining ergonomic and versatile options.

Enhanced Security

Security is paramount in healthcare. Our automated dispensing cabinets provide advanced access controls and tracking features to help prevent unauthorized access, ensuring that medications are safeguarded and adhere to healthcare standards.

Revolutionize how EMS teams manage medication restocks and enhance their operations.

TouchPoint Medical transforms EMS operations by streamlining medication restocking, enhancing security, and optimizing space. Our automated dispensing cabinets eliminate search time, ensuring faster restocks, while advanced access controls safeguard medications and ensure compliance. With flexible, space saving solutions tailored to each facility, we empower EMS teams to focus on what matters most—saving lives.
