

Long Term Care Solutions

Easy-to-Use

Our user friendly single-dose dispensing ADCs that ensure you get exactly what you need, giving you complete control over medication inventory and access.

Budget Friendly Solutions

Flexible automated medication dispensing solutions save time and reduce costs, providing long term care facilities with budget friendly options tailored to meet your unique needs.

Low Profile Design

Optimize your workspace with our space saving mounting systems and low profile automated dispensing cabinets, designed to create a more patient centered environment.

Empowering caregivers in long-term care environments by streamlining workflows and improving patient outcomes.

At TouchPoint Medical, we create innovative solutions that streamline workflows, enhance patient care, and improve efficiency in long term care environments. Our space saving medication dispensing systems give caregivers precise control over inventory while reducing costs and optimizing workflow. With low profile automated dispensing cabinets and space saving mounting systems, we optimize workspaces and enhance patient focus—ensuring caregivers can focus on providing exceptional care.

BRINGING CARE FORWARD.™
