

Empowering Biomedical Engineers

TouchPoint Medical's engineered solutions help biomedical teams streamline device integration, simplify maintenance workflows, and reduce complexity—allowing teams to be more responsive to clinicians' needs and operational demands.

Enhance Performance and Responsiveness with TouchPoint Medical

Streamlined Operations

Unified systems reduce cross-vendor complexity, simplifying maintenance, integration, and workflows.

- Simplified interoperability and data connectivity
- Standardized components reduce maintenance friction
- Single vendor support contact

Safety, Reliability & Compliance

Secure, dependable solutions minimize errors and reduce clinician downtime caused by equipment issues.

- Maximized system uptime
- Consistent clinical integration performance
- Reduced technical risk through robust engineering

Integrated Support

Engineered solutions tailored to clinical demands, backed by responsive support that accelerates issue resolution.

- Support built for clinical systems & workflows
- Ecosystems designed for maintenance efficiency
- Dedicated technical expertise for complex integrations

Most Preferred By Biomedical Engineers

TouchPoint Medical's AccessMount™ 180 ICW Workstation and AccessMount™ 180 ICW Patient Monitor Mount.

TouchPoint Medical's AccessMount™ 180 ICW Patient Monitor Mount on headwall in a patient's room.

AccessMount™ 180 ICW Patient Monitor Mount

The AccessMount™ 180 ICW Patient Monitor Mount offers highly adjustable positioning and integrated cable management to keep devices organized and accessible. Designed to support most major patient monitors, it enhances visibility, improves space utilization, and helps biomedical teams ensure reliable continuous monitoring.

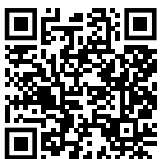

Elo-Cart Roll Stand Monitor

The elo-cart transports patient monitors directly to the bedside--enhancing care and streamlining clinical workflows. Its compact footprint frees up space in device-intensive settings, while a stable base and four tracking casters make repositioning easy and safe. A fully enclosed bin keeps leads and accessories organized and within reach.

AccessMount™ 180 ICW Mounted Workstations

Our most popular mount, the AccessMount™ 180 ICW Workstation mounts to any surface, including anesthesia carts. Engineered for reliability, this arm has impeccable cable management while still giving care teams flexible and ergonomic comfort. With adjustable rotation stops to protect the equipment and facility from damage, this arm will provide years of dependable service.
