

Empowering Nursing Teams

TouchPoint Medical's ergonomic, configurable solutions support nurses at the point of care—reducing inefficiencies, securing medications, and creating consistent workflows that allow teams to focus on delivering compassionate, high-quality patient care.

Improve Workflow and Patient Experience with TouchPoint Medical

Workflow Efficiency

Streamline patient care with clinical solutions that boost patient satisfaction, accelerate care delivery, and ensure reliable uptime.

- Streamlined medication preparation and delivery
- Mobile documentation at the point of care
- Organized storage to keep care moving without delays

Medication Safety & Compliance

Strengthen medication accuracy and accountability with secure systems that enable barcode-driven workflows and closed-loop administration.

- Secure access with comprehensive tracking
- Barcode workflow enablement
- Engineered for accurate dispensing and documentation

Ergonomics & Patient Experience

Create more comfortable, well-organized care environments that support caregiver well-being and elevate the patient experience.

- Ergonomic designs that reduce caregiver fatigue and strain
- Clean, organized bedside spaces that promote a calming environment
- Thoughtful equipment positioning for comfortable, uninterrupted care

Most Preferred By Nursing Teams

TouchPoint Medical's AccessPoint MD™ medication delivery workstation in a patient's room.

TouchPoint Medical's AccessMount™ 180 ICW Patient Monitor Mount on headwall in a patient's room.

AccessPoint MD™ Medication Delivery Workstation

AccessPoint MD™ supports closed-loop medication administration with secure, patient-specific bins and barcode integration. Designed for bedside delivery, it improves medication accuracy while streamlining nursing workflows.

medDispense® C Series Automated Dispensing Cabinets

The medDispense® C Series pairs flexible drawer configurations and bulk storage with secure access controls and real-time tracking—enabling nursing teams to manage patient medications quickly and confidently.

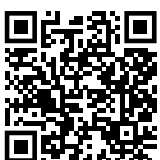

workFLO® Single Monitor Powered Workstations on Wheels

workFLO® Single Monitor Workstations on Wheels delivers streamlined mobility, adaptable configurations, and built-in tech storage to support efficient point-of-care documentation.

AccessMount™ 180 ICW Patient Monitor Mount

The AccessMount™ 180 ICW Patient Monitor Mount delivers fully adjustable device positioning with integrated cable management to keep patient data visible, accessible, and organized at the bedside.
