

Transforming Your Dental Office Installed Fast, Running Faster

ICW is now AccessMount™ and sold through TouchPoint Medical. Designed for quick installation and seamless integration, AccessMount™ solutions from TouchPoint Medical minimizes disruption to daily operations. They fit easily into existing layouts and workflows, allowing practices to stay productive while upgrading operatories, reception areas, or imaging suites with minimal downtime.

ICW / AccessMount™ Solutions for Dental Teams

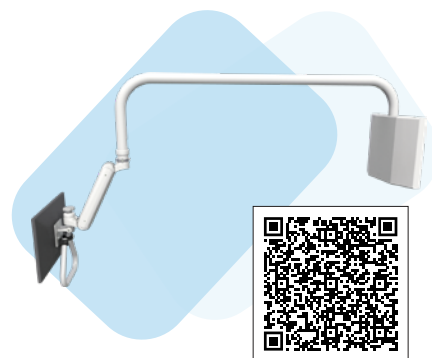

Cabinet Mounts

Free up counter space and reduce clutter with adjustable monitor mounts—improving ergonomics, visibility, and patient interaction.

Ceiling Mounts

Securely position displays exactly where needed with full articulation—reducing glare, strain, and saving valuable operator space.

Overhead Arm

Streamline workflow with a long-reaching overhead mount for precise monitor placement, clean cable management, and space-saving stowage.

Device & Accessory Mounts

Reliable, space-saving mounting solutions for CPUs, keyboards, and accessories that improve organization, accessibility, and workflow efficiency across clinical, administrative, and workstation environments.

AccessMount™ Keyboard Tray [Ergonomic Keyboard Solution](#)

The AccessMount™ Keyboard Tray delivers adjustable height and tilt positioning to promote ergonomic comfort at the point of care. Designed for durability and smooth articulation, it helps reduce strain while supporting efficient documentation workflows.

Mounting Locations:

- Wall Mounts
- Cabinet Mounts
- Desk Mounts
- Pole Mounts

AccessMount™ Computer Clamp [Adjustable PC Mount](#)

The AccessMount™ Computer Clamp securely mounts CPUs off the floor to improve safety, organization, and accessibility. Its adjustable design supports a range of computer sizes while reducing clutter and simplifying maintenance.

Mounting Locations:

- Wall Mounts

AccessMount™ GX Series [LCD Wall Mount](#)

The AccessMount™ GX Series provides strong, low-profile monitor support for space-constrained clinical environments. Its simple installation and durable construction ensure reliable display positioning and long-term performance.
